LIQUOR SEIZED BY SHERIFF ORDERED DESTROYED

Martin Smith, not appearing before Judge J. A. Howell to show cause why his stock of liquors seized by Sheriff T. A. Devine March 22 should not be confiscated and destroyed, the judge ordered that the goods be forfeited to the state and that the sheriff proceed to destroy them.

Sheriff T. A. Devine testified that he knew that the liquor seized were kept by Mr. Martin for illegal purposes and that he had actually made sales. In corroboration of the sheriff's statement, E. M. Morrissey testified that he purchased a quart of whiskey of Mr. Smith at about the time of the seizure.

It will be recalled, however, that Smith was tried for selling liquor at his store at West Weber and a jury rendered a verdict of not guilty. The stock of liquors consists of fifty bottles of beer, a quantity of whiskey, blackberry cordial and alcohol. The sheriff will destroy the liquor.

WORK STARTED ON EXPERIMENTAL WELL

The city commissioners have begun the sinking of another artesian well at a point near the county road in the vicinity of the wells that are now flowing, the expectation being that water will be encountered. It is a six-inch well and will be driven to about the same depth as the other wells, approximately 150 feet.

The reason for driving this well at a distance from the other wells is to determine the extent, in width, of the water supply secured through the wells that are close together. If a large flow of water is found in the new well it will indicate that the city may drive artesian wells on most any part of its 40-acre tract with success.

OGDEN ON WAY WEST

A practical demonstration of the P. W. Williams "Wheel Slipping Preventer" was given this morning on Washington Avenue between Eighth and Twentieth streets on a wet track. The device was attached to car No. 48 of the Ogden, Logan & Idaho Railway company. The demonstration was witnessed by Master Mechanic D. J. Hickey and Assistant Superintendent W. J. Toy of the Salt Lake division of the Southern Pacific. Master Mechanic Paine of the Salt Lake & Ogden Railway company, General Manager Malone of the Western Foundry & Machine company and General Storekeeper Smith of the Ogden, Logan & Idaho Railway company. Mr. Smith represented Superintendent P. D. Kline, who was unable to be present.

In making the demonstration the governor of the device was first "cut" from the car wheels and when the brakes were put on the car slipped nearly fifteen feet. The governor was then put on and the car was almost instantly stopped with scarcely a perceptible jar. In the opinion of all who saw it the demonstration was an entire success and all of the railroad men were much impressed with the possible value of Mr. Williams' invention, both as a safety device and from an economic viewpoint.

Master Mechanic Hickey speaking of it later in the day said that he had been prepared to express a definite opinion with regard to the probability of its being adaptable for use on steam propelled cars but that for electrically propelled cars it appeared to be a valuable appliance.

"Mr. David Eccles,
"My Dear Bro.—I have been writing a number of letters this morning, giving my friends my new address, and as I count you as one, I thought I would treat you likewise. On and after tomorrow my add. will be 33 O Street. It is just around the same location as this place, only will be to the front. I will just take the same car and get out at O Street instead of S. Well goodbye.
"Hoping all is well with you,
"M. F. GEDDES."
Handwriting Experts Engaged.
Theodore Kytka of San Francisco and Albert S. Osborn of New York, handwriting experts of national renown, have been summoned by the defendants to examine the handwriting in the letters which Mrs. Geddes has identified as having been written by her to Mr. Eccles using these as standards, with a view to determining whether the handwriting in both the identified and the unidentified was penned by the same hand. The experts will be in Ogden early next week to take up the examination. They likely will have all the letters photographed and enlarged before going before the jury with them for explanation of the similarity of the writings.

Deaths and Funerals

GREENWEL—The funeral of Blanche Greenwell will be held in the Ninth ward meeting house tomorrow at 2 p. m. and the interment will be in the City cemetery. The body may be viewed at the home, 3821 Ogden avenue, tonight and tomorrow until 1 p. m.

WILLIAMS—Gertrude Marion Williams, wife of Joseph Williams, died at the home of Albert Stratford, 2324 Jackson avenue, this morning at 9 o'clock. She was the daughter of Marion Compton Chandler and George Chandler and was born February 5, 1883, in this city. Funeral services will be announced later.

YOUNG HUNTER BAGS MOTHER BEAR AND CUB

William Marriott, a fifteen-year-old lad of Marriott, last evening on the South Fork of the Ogden river a few miles east of Huntsville, fired rifle shots that laid low a she bear and her cub. George Higley was near by and fired subsequent shots that more readily dispatched the two bears to the happy hunting grounds.

Young Marriott stated today, after the bear had been examined by the county clerk that he was entitled to \$15 for each carcass as a bounty, that he tracked the animals a considerable distance before he came within shooting distance and that he shot the bear a fight for her cub but before she approached near enough to the lad to harm him he shot her down. The little bear climbed a tree but he was soon felled from the tree by the boy's good marksmanship.

The animals were brought to the city this morning by the boy and Mr. Higley, first presenting them to the county clerk for identification, and then negotiating for the sale of them to butchers of the city. Mr. Higley said that the two bears would bring a bounty of \$30 and that they likely could be sold to meat dealers for about \$20. The mother bear was not very large and the cub appeared to be only a few months old, so that their carcasses would not bring a very large price at the meat markets.

SHOPMEN'S STRIKE IS CALLED OFF

The Federated Shopmen's strike which has been in effect on the Hariman railroad system for the past forty-four months has been called off by the international unions of the affiliated workmen's organizations. News to this effect was received by some of the striking shopmen in Ogden last night from Charles T. Nicholson, a member of the general executive board of the International Association of Machinists who resides in Salt Lake City. He was notified of it through the head office of the American Federation of Labor.

But little local effect will be noticed through the ending of the strike as most of the men who left their employment have secured positions elsewhere and the local shops are well supplied with workmen.
